## CAREER SUMMARY

Entry-level Java Full Stack Developer with hands-on experience in building scalable web applications using Java, Spring Boot, and MySQL. Skilled in MVC architecture, REST APIs, and frontend technologies like HTML, CSS, and JavaScript. Seeking to contribute to real-world projects and grow as a software developer.

## Technical Skills

**Language:** Java  
**Backend:** Spring Boot, Servlets, Spring Framework, REST APIs, JDBC  
**Frontend:** HTML, CSS, JavaScript, ReactJS  
**Database:** SQL, Oracle Database, PostgreSQL  
**Concepts:** Collections Framework, Stream API, OOP Concepts, Exception Handling, Multithreading  
**Tools:** Eclipse IDE, Apache Tomcat, VS Code, Git & GitHub

## PROJECTS

### Online Product Portal

- Designed and enhanced a **web-based Online Product Portal** using **Java, Servlets, JSP, and JDBC**, following the **MVC architecture** to separate presentation, business logic, and data layers, enabling better code organization and maintainability.
- Applied complete **CRUD functionality** for product management by integrating **Oracle database** through JDBC, including writing SQL queries, handling database connections, processing user inputs, and managing exceptions for reliable data operations.
- Created a **responsive and user-friendly interface** using **HTML and CSS**, along with **form validation and session management**, to allow users to browse products efficiently while enabling the admin to securely add, update, and delete product records.

### Bank Management System

- Developed a **Banking Management System** using **Java, JDBC, Servlets, and Oracle** to manage customer accounts, transactions, and account details.
- Performed **CRUD operations** (Create, Read, Update, Delete) for customer records, including account creation, balance updates, and transaction history.
- Established a **secure login and authentication module** for admin and users with proper session handling.
- Integrated **database connectivity** using JDBC and optimized SQL queries for efficient data retrieval and transaction processing.

### Personal Portfolio Website | [Portfolio](#) | [GitHub](#)

- Architected and crafted a responsive portfolio website using **HTML, CSS, Bootstrap** and **JavaScript**.
- Built a fully responsive personal portfolio website using my own data. Showcased projects, skills, and education with a Mobile-first approach, ensuring 100% cross-device compatibility.
- Integrated interactive UI elements such as smooth scrolling, project gallery, and contact form to enhance user experience.

## EDUCATION

|                                                                                                     |             |
|-----------------------------------------------------------------------------------------------------|-------------|
| Bachelor of Technology   Electrical and Electronics Engineering   Mahatma Gandhi University College | 2021 – 2025 |
| Board of Intermediate Education   TS Model College                                                  | 2019 – 2021 |
| Secondary School Certificate   ZPHS Nidamanoor                                                      | 2019        |

## CERTIFICATES

|                                                  |            |
|--------------------------------------------------|------------|
| Introduction to SQL   <b>Simplilearn skillUp</b> | March 2026 |
|--------------------------------------------------|------------|

## SOFT SKILLS

- Problem-Solving
- Team Collaboration
- Communication Skills
- Analytical Thinking

## KNOWN LANGUAGES

English, Telugu, Hindi
